

Cabinet Shop Services Proposal

Web Development Services for Cabinet Shops

DEVELOPER CAPABILITIES & PRICING OVERVIEW

Prepared by: [Your Name / Your Business]

Date: May 2026

Rate: \$150/hr | Tier 1 flat: \$2,000

OVERVIEW

This document outlines the web development services available for cabinet shop clients. Each tier builds on the last — clients can start with a professional shell site and expand over time. Every feature listed here is delivered using Shopify's native platform tools (Dawn theme, Liquid, CSS, and vanilla JavaScript). No third-party apps, no custom Shopify app development, no external dependencies.

Clients own their Shopify store outright. They are never locked in to a specific developer or agency.

PLATFORM

All sites are built on **Shopify** using the **Dawn theme** as a base.

- Shopify handles hosting, security, and uptime
- Dawn is Shopify's official open-source theme — well-maintained, fast, and fully customizable
- Custom branding is applied through theme settings and hand-written CSS
- All custom functionality (quote forms, calculators) is built in vanilla JavaScript — no plugins required
- Shopify billing goes directly to the client; no markup on platform costs

SERVICE TIERS

Tier 1 — Shell

\$2,000 flat | Estimated build: ~13 hours

A clean, professional web presence built to convert visitors into enquiries. Three core pages, fully branded, mobile-responsive, and ready to go live.

Included:

- Shopify store setup and configuration
- Dawn theme installation with full brand customization
 - Colors, typography, logo placement
 - Applied via `settings_data.json` and custom CSS
- Three core pages:
 - **Home** — Hero image, headline, intro text, call to action button
 - **Door Profiles** — Visual showcase of available door styles
 - **About / Contact** — Company story, values, contact details, and a basic inquiry form (name, email, message — Shopify native)
- Mobile-responsive layout across all pages
- Basic SEO foundation: page titles, meta descriptions, image alt text
- Domain connection (client completes the DNS step; walkthrough provided)
- One round of revisions included
- Custom favicon created and installed (client supplies logo)

Client provides: Logo file, brand colors (or direction), written copy, product photos

Brand assets: Favicon included. All other brand assets (logo suite, colour palette, social templates) supplied by client.

Tier 2 — Smart Quote

\$3,500–\$4,000 total | ~10–13 additional hours @ \$150

Everything in Tier 1, plus a structured quote request form that captures exactly what a customer needs — no more vague enquiry emails.

Added features:

- Upgraded quote form replacing the generic contact form, with fields for:
 - Door profile selection (dropdown linked to available styles)
 - Width × height per door
 - Quantity
 - Preferred finish
 - Contact information and notes
- Built as a custom Liquid form with Shopify's native form handling — no apps or third-party services required

- Client receives structured, actionable data from every enquiry
- Custom favicon created and installed; client's existing logo and colour scheme applied to the site

Brand assets: Favicon included. All other brand assets supplied by client.

Tier 3 — Live Estimator

\$6,000–\$7,000 total | ~20–27 additional hours @ \$150

Everything in Tier 2, plus a JavaScript price calculator that shows customers an instant estimate on screen before they submit — no phone call required to get a ballpark figure.

Added features:

- **Live price calculator** — customer enters door profile, dimensions, and quantity; an estimate appears instantly on the page
- Estimate is display-only (no checkout); customer still submits the quote form to proceed
- Removes the back-and-forth quoting cycle for straightforward orders; qualifies buyers before they make contact
- Built entirely in vanilla JavaScript — no apps, no backend, no external services

Brand Kit — Essentials (included from Tier 3):

- Primary logo (horizontal / long form), condensed logo (vertical / short form), icon mark
- Custom favicon (.ico + .png)
- Hex colour palette (6 brand colours)
- 5 × social media post templates (1080×1080 + 1200×630)
- All assets delivered in SVG + PNG format
- Assets implemented directly on the site; no technical handoff required from client

Tier 4 — Full E-Commerce

\$9,000–\$11,000 total | ~20–27 additional hours @ \$150 above Tier 3

Everything in Tier 3, plus live cart, checkout, and payment processing. Customers can complete a purchase without calling or waiting for a quote response.

Added features:

- Full e-commerce: live cart, Shopify checkout, and payment processing (Shopify native — no custom app required)
- Product pages for each door profile, linked to the configurator and checkout flow
- Order confirmation emails handled automatically by Shopify

Note: Requires the client to be on Shopify's Basic plan or above. Most shops are already on a qualifying plan.

Brand Kit — Extended (included from Tier 4):

- Everything in Tier 3 Brand Kit

- 15 × social media post templates total (10 additional to the 5 in Tier 3)
- Social profile image set (sized for Facebook, Instagram, LinkedIn, YouTube)
- Email signature template (HTML, ready to install in any email client)
- Branded thumbnail pack (YouTube and web, 1280×720)
- White and black logo variants
- All assets in SVG + PNG + PDF format

Tier 5 — Trade & Pro Portal

\$12,500–\$15,000 total | ~23–27 additional hours @ \$150 above Tier 4

Everything in Tier 4, plus a verified trade account system — builders, designers, and contractors who register see a separate price tier without any custom app development.

Added features:

- **Trade/contractor pricing** — verified trade accounts see a different price tier, implemented using Shopify customer tags and Liquid conditional logic (no custom app required)
- Trade account registration form; accounts are manually approved and tagged by the client
- Downloadable spec sheets — PDFs hosted directly in Shopify Files, linked from product pages
- Bulk order support — order notes and quantity-based pricing adjustments

Brand Identity System (included from Tier 5):

- Everything in Tier 4 Brand Kit
- Brand guidelines PDF (print-ready; covers logo usage, colour palette, typography, do's and don'ts)
- CSS design system documentation (colour variables, button styles, typography scale)
- Typography hierarchy defined (heading levels, body text, labels)
- Button and UI component style guide
- Ongoing brand asset management (updates and additions at the retainer rate)
- ZIP archive of all brand assets for clients with in-house IT teams

MONTHLY RETAINER OPTIONS

Ongoing support billed at \$150/hr, available in pre-purchased monthly packages.

PLAN	HOURS/MONTH	MONTHLY COST	WHAT IT COVERS
Light	2 hrs	\$300/mo	Text and image updates, minor fixes
Standard	4 hrs	\$600/mo	Above + new product additions, SEO checks

Growth	8 hrs	\$1,200/mo	Above + new sections, seasonal updates, performance reviews
— Unused hours do not roll over			
— Hours above the monthly package are billed at the standard \$150/hr rate			
— Retainer work is logged and reported monthly			

WHAT IS NOT INCLUDED

The following items are outside the scope of these services:

ITEM	REASON
Photography and copywriting	Client supplies all photos and written copy for the site
Brand asset creation (Tiers 1–2)	Client supplies logo, colours, and brand assets for Tiers 1 and 2 only — brand kit is included from Tier 3
Email marketing campaigns	Client manages their own Klaviyo/Mailchimp account
Custom Shopify app development	Requires a separate development stack beyond this scope
Third-party app integrations	Only Shopify-native features are used
Domain purchase or registration	Billed directly to client via their domain registrar
Shopify subscription fees	Billed directly to client by Shopify

TIMELINE EXPECTATIONS

TIER	ESTIMATED DELIVERY
Tier 1 — Shell	5–7 business days
Tier 2 — Smart Quote	10–14 business days
Tier 3 — Live Estimator	4–5 weeks (includes brand kit)
Tier 4 — Full E-Commerce	5–7 weeks (includes extended brand kit)
Tier 5 — Trade & Pro Portal	7–9 weeks (includes brand identity system)

Timelines begin from the date all client assets are received (logo, copy, photos). Delays in asset delivery extend the timeline by an equivalent amount.

HOW A PROJECT WORKS

1. Client selects a tier
2. Kickoff call (15–30 min) — confirm brand direction, content, and any specific requirements
3. Client delivers all assets within 2 business days
4. Build phase begins (see timeline above)
5. Review round — client submits feedback in one consolidated pass
6. Revisions applied, final checks completed
7. Site goes live
8. Optional retainer begins for ongoing support

PRICING SUMMARY

TIER	FLAT / ESTIMATED TOTAL	ONGOING OPTION
Tier 1 — Shell	\$2,000 flat	Retainer optional
Tier 2 — Smart Quote	~\$3,500–\$4,000	Retainer optional
Tier 3 — Live Estimator	~\$6,000–\$7,000	Retainer recommended
Tier 4 — Full E-Commerce	~\$9,000–\$11,000	Retainer recommended
Tier 5 — Trade & Pro Portal	~\$12,500–\$15,000	Retainer recommended

All pricing above Tier 1 is estimated based on scope. Final cost is determined by actual hours worked at \$150/hr. Clients are informed before any work begins that would exceed the estimate.
