

Custom-Curated Social Media for Cabinet-Door Manufacturers

Predictable, qualified cabinet-shop leads at a known cost per lead — on Facebook, Instagram, and TikTok.

Prepared by Devon H. · For: [Client / Shop Name]

The Plan: I turn social-media attention into a steady, measurable stream of leads — so your shop can stay focused on building doors while the orders keep coming in.

What You Get

- **A curated custom content engine** — short product and process videos plus posts, produced, scheduled, and posted for you across Instagram, Facebook, and TikTok.
- **An always-on lead campaign** — one focused paid campaign that captures real, contact-ready leads directly inside Facebook and Instagram.
- **A plain-English monthly report** — what we spent, what came in, and what changes next month. No jargon.
- **About 1–2 hours of your time a month** — you send one batch of photos and quick phone footage; I handle everything else, fully remote.

How It Works

1. **Attract** — short "watch it get made" videos and finish-comparison posts earn reach organically, no ad spend needed.
2. **Capture** — in-app lead forms (not website clicks) pre-fill the buyer's contact info; these convert roughly 2–3× better than sending people to a website.
3. **Nurture** — everyone who watched or engaged gets re-targeted, and every new lead gets a fast reply.
4. **Close** — the hook is a free, no-obligation quote on the shop's next door order — a low-friction "yes" that starts a real conversation.

Why This Will Yield Results

- **We meet buyers where they already are** — nearly half of B2B decision-makers use Facebook for business research. Your buyer is a normal person scrolling in the evening.
- **Low-polish video wins here** — in the woodworking/CNC niche, raw, unscripted clips outperform over-produced ads — cheaper to make *and* better performing.
- **Managed to numbers, not vibes** — every dollar is tracked to a cost per lead, and budget moves to what's actually working.

Ready to see what this looks like for your shop? Here's how we get started ▶

When You're Ready, Here's How We Start

Pick a starting ad budget and send me your first batch of material — I handle the rest. No long-term lock-in to find out whether it works.

Choose Your Starting Ad Budget

Tier	Monthly ad spend	What it funds
Lean	\$300	Organic engine + light post boosting
Starter <i>(recommended)</i>	\$800	+ one always-on lead campaign
Growth	\$2,000	+ retargeting, lookalikes, faster testing

*The figures above are **ad spend paid directly to Meta** — your money, your ad account. My management fee is separate and quoted for your shop after a short, no-obligation discovery call, once I understand your volume. I commit to **measured** lead numbers after the first 30 days — real data, not promises up front.*

What I'll Need From You to Launch

- Your Facebook, Instagram, and TikTok handles — or I'll set them up
- Your logo and any brand files you have
- One batch of product photos and quick phone footage — I send a simple shot list, about 1–2 hours of your time
- The market area you serve today
- A quick sense of your goals and where leads come from now

Next step: a short discovery call and your first batch of material — and we launch.
